Question 1. A. updates B. inquiries C. arrangements D. headlines

Question 2.

A. emotionally description powerful

B. powerful description emotionally

C. emotionally powerful description

D. description emotionally powerful

Question 3. A. which compose B. composing

C. composed D. is composed

Question 4. A. to B. of

C. from D. with

Question 5. A. highlight B. highlighting

C. to highlight D. to highlighting

Question 6. A. expression B. expressively

C. expres D. expressive

Mark the letter A, B, C or D on your answer sheet to indicate the best arrangement of utterances or sentences to make a meaningful exchange or text in each of the following questions from 7 to 11.

Question 7. a. Anna: Hi, David! I heard you got a new job. Congratulations!

b. Anna: That sounds great! I'm really happy for you.

c. David: Thanks, Anna! Yes, I started working for a software company last month.

A. c-b-a

B. c-a-b

C. b-c-a

D. a-c-b

Question 8. a. While AI has the potential to automate jobs, it also creates opportunities for new roles that require advanced problem-solving and creative skills.

b. As machines become more adept at performing complex tasks, businesses are rapidly integrating AI to enhance efficiency and innovation.

c. The key to navigating this transformation lies in balancing technological advancements with the human elements of adaptability and continuous learning.

d. Artificial intelligence is revolutionizing industries at an unprecedented pace, transforming how organizations operate and setting new standards for productivity and innovation.

e. This technological shift is not without its challenges, particularly in areas like employment.

A. d-b-e-a-c

B. b-e-d-a-c

C. b-c-e-a-d

D. d-b-e-c-a

- Question 9.** a. Nam: That's great! How does the project work?
 b. Mai: Our school has started a "Green Campus" project to save energy and reduce plastic waste.
 c. Nam: I completely agree! Each small action counts. Together, we can create a more sustainable future for everyone.
 d. Mai: We've installed solar panels, set up recycling bins, and encouraged students to bring reusable bottles.
 e. Nam: Wow, that sounds really practical. I think every school should have a similar project.
- A. c-b-a-e-d B. d-e-a-b-c C. b-d-a-e-c D. b-a-d-e-c

- Question 10.** Hi Minh,
 a. I've learned some useful tips for saving electricity online, and I think you may find them helpful too.
 b. These small actions not only lower our electricity bills but also help protect the environment by reducing carbon emissions and saving natural resources.
 c. Let's both try to follow these habits and see how much energy we can save!
 d. Turning off lights when leaving a room and unplugging unused devices can make a big difference.
 e. Another good idea is to use energy-saving appliances like LED bulbs or smart plugs, which last longer and help us cut down unnecessary power use.
- Take care,
 Lan
- A. c-a-d-b-e B. b-e-a-d-c C. a-d-e-b-c D. d-b-a-c-e

- Question 11.** a. Moreover, despite the popularity of traditional medicine, modern medical facilities have been established in major cities, blending traditional and contemporary treatments.
 b. The use of herbal remedies has increased, with clinics offering treatments that use natural ingredients like ginseng, turmeric, and licorice.
 c. Traditional Vietnamese medicine has been practiced for centuries and remains a vital part of healthcare in rural areas.
 d. This blend of old and new approaches ensures a holistic healthcare experience that caters to both urban and rural populations.
 e. The government has also supported this growth by funding research on medicinal herbs and integrating traditional practices into public health policies.
- A. c-e-b-a-d B. c-b-e-a-d C. c-d-a-b-e D. c-b-d-a-e

Read the following leaflet and mark the letter A, B, C or D on your answer sheet to indicate the option that best fits each of the numbered blanks from 12 to 17.

Important Notes for Attending the 80th National Day Parade

On the morning of September 2, 2025, the Military Parade and Procession will take place from 6.30 AM to around 10 AM at Ba Dinh Square, marking the 80th Anniversary of Vietnam's National Day. This is not only a solemn ceremony but also a proud moment for each (12) _____. In the days leading up to the event, the public may also witness several impressive parade (13) _____.

To enjoy the parade in comfort and safety, here are some important reminders:

- **Plan to arrive ahead of time.** The roads may be very congested and you could be (14) _____. A large (15) _____ of patriotic people will take to the streets to attend this important event.
- **Choose neat attire.** Prioritize simple yet respectful outfits such as T-shirts. Wear low-heeled shoes like sneakers or flats to move around with ease.
- **Bring essential protective items.** A cap or compact umbrella will shield you from the sun, while a raincoat is recommended (16) _____ sudden showers.
- **Celebrate respectfully with banners or flags.** Small banners, national flags, or stickers can help you share the festive spirit. However, remember to use them politely and avoid (17) _____ others' view.

(Adapted from dantri.com.vn)

- Question 12.** A. people B. inhabitant C. resident D. citizen
Question 13. A. demonstrations B. performances C. practices D. rehearsals
Question 14. A. turned down B. put off C. held up D. pressed on
Question 15. A. amount B. quantity C. quality D. number
Question 16. A. in case of B. in regard to C. in addition to D. in terms of

Question 17. A. provoking B. obstructing C. bothering D. harassing

Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 18 to 27.

South Korea is developing next-generation military robots that will mimic the movements and capabilities of birds, snakes, marine creatures and even insects on the battlefields of the future. The Defence Acquisition Programme Administration (DAPA), which oversees the creation of weapons systems for the military has announced plans to develop "biobots" - robots that are based on real creatures - to be deployed as early as 2024, Yonhap News reported.

(I) There is a recognition that the South Korean military will very soon need to rely more heavily on technology to defend the nation, with a falling birthrate meaning that fewer young men are available to do their mandatory national service, **which** ranges from 21 months in the army to 24 months in the air force. (II) In addition, there is growing resistance among many men to obligatory military service and the South Korean government has recently made it easier for some to avoid serving, such as by claiming that it contravenes their religious beliefs. (III) Another "trick" that exempts a man from military service is tattoos that cover most of his body. (IV)

In the initial stages, bird-like androids or swimming robots will be deployed to carry out reconnaissance operations, miniature mechanical flying devices will be able to provide information on the actions of an enemy force and robots that can move like a snake will be able to access **constricted** spaces. As well as assisting in military operations, these devices will be able to assist in search-and-rescue operations and will have applications in areas affected by natural disasters.

The agency said it is turning to designs that have been inspired by the natural world because nature has **engineered** animals to survive and thrive in their environments over millions of years. The South Korean military plans to work closely with domestic technology companies, which are widely seen as among the most advanced in the world in the areas of artificial intelligence, but have less of a focus on military applications.

(Adapted from <https://www.telegraph.co.uk>)

Question 18. What can be inferred from the passage?

- A. The majority of Korean men does not want to join the army because of religious reason.
- B. Military robots have been widely used by the South Korean army in various missions.
- C. Future biobots will take inspiration exclusively from flying and swimming animals.
- D. The South Korean army may collaborate with other technology companies in the country.

Question 19. Which of the following best summarizes the passage?

- A. The measures and strategies taken by the South Korean army to deal with the nation's declining birth rate and shortage of young soldiers.
- B. The explanation of how real animals serve as perfect biological models that inspire scientists to design advanced military robots in South Korea.
- C. The introduction of new technologies that are expected to support rescue and recovery efforts in areas heavily affected by natural disasters.
- D. The ambitious plan of South Korea to create next-generation, animal-inspired robots designed primarily for military operations and national defense.

Question 20. Which of the following statements best summarizes paragraph 3?

- A. The paragraph describes how robotic technology based on animal motion improves South Korea's military and civil operations.
- B. South Korea is developing advanced military robots modeled on animal movements to perform multiple roles in national defense.
- C. The newly designed robots will serve both in military missions and humanitarian efforts such as rescue operations.
- D. Military robots are portrayed as versatile devices that can gather intelligence, support operations, and assist during disasters.

Question 21. Which of the following best paraphrases the underlined sentence in the first paragraph?

A. The actions and characteristics of animals will mimic modern military robots of South Korea for future battlefields.

B. Modern military robots will battle with birds, snakes, marine creatures and even insects in South Korea battlefields.

C. South Korea are created military robots which can imitate the actions and characteristics of animals for future battlefields.

D. Modern military robots are created by South Korea can imitate the actions and characteristics of animals for future battlefields.

Question 22. The word **engineered** in the final paragraph can be best replaced by _____.

- A. determined B. decided C. designed D. defined

Question 23. The word **constricted** in paragraph 3 is **OPPOSITE** in meaning to _____.

- A. shallow B. minuscule C. narrow D. massive

Question 24. Based on paragraph 3, which of the following is **TRUE** about the use of "biobots" in the future?

- A. Only snake robots are useful in areas affected by natural disasters.
B. Small flying robots can be used to gather information about enemy forces.
C. Swimming robots must always be deployed along with flying ones.
D. Birdlike androids will only assist in reconnaissance operations.

Question 25. Which of the following is **NOT** mentioned as mimicking the movements and capabilities of South Korea's next-generation military robots?

- A. Devices inspired by insects capable of collecting intelligence in small areas.
B. Machines modeled on marine creatures designed for underwater operations.
C. Robots resembling rabbits that are trained to detect landmines on battlefields.
D. Robots that move and fly like birds to perform reconnaissance missions.

Question 26. The word **which** in paragraph 2 refers to _____.

- A. South Korean military B. real creatures
C. national service D. falling birthrate

Question 27. Where in paragraph 2 does the following sentence best fit?

Others have claimed to be suffering mental illness or have put on so much weight that they are above the maximum limit for recruits.

- A. (I) B. (IV) C. (II) D. (III)

Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct option that best fits each of the numbered blanks from 28 to 32.

Conservation centres play a crucial role in nurturing endangered animals before reintroducing them into their natural habitats. These centres, which specialise in the care and rehabilitation of threatened species, (28)_____. This process ensures that the animals are strong enough to survive in the wild and capable of displaying natural behaviours necessary for their long-term survival. Within these centres, veterinarians, biologists, and trained volunteers work together to provide medical treatment, create safe enclosures that simulate real habitats, and teach animals how to forage or interact with others of their kind.

Releasing these animals back into the wild, however, presents many challenges. One major issue is that animals (29)_____ may struggle to adapt to their natural habitats. For example, they might not know how to hunt or find food independently, skills essential for survival. (30)_____. Additionally, conflicts with existing wild populations can occur, as territorial disputes may arise. Some reintroduced animals may also be exposed to human activities such as deforestation, hunting, or pollution, which threaten their safety.

Despite these difficulties, the efforts are worthwhile. Reintroduced to natural habitats, (31)_____. Successful cases, such as those involving large predators like wolves or big cats, have proven that with thorough planning, conservation projects can contribute to healthier environments. Through these efforts, public awareness is being raised about the importance of wildlife protection. This growing awareness

encourages communities to take action, ensuring that (32) _____ and that conservation work continues to flourish for future generations.

Question 28.

- A. animals receive proper care and social interaction in the controlled environment provided
- B. which provide animals with a controlled environment, receive proper care and social interaction
- C. provide a controlled environment for animals to receive proper care and social interaction
- D. create a controlled environment for animals to develop proper care and social interaction

Question 29.

- A. in protected environments they have lived and grown for a longer period than in others
- B. have lived and grown with humans under controlled conditions for a long period
- C. which having lived and grown for a long period in protected environments
- D. that have lived and grown in protected environments for a long period

Question 30.

- A. As a result, they may face starvation or become unable to compete with other animals for resources
- B. However, high competition for resources in the habitat leads to starvation and even death
- C. Similarly, the well-being and survival of animals is threatened when resources are already scarce
- D. Natural competition, by contrast, will select the strongest warriors and eliminate the weaker ones

Question 31.

- A. the ecosystem is restored thanks to the balance that these animals unintentionally bring
- B. the ecosystem regains its balance, beneficial for the long-term survival of the other species
- C. animals help restore ecosystems which depend on the balance of various species
- D. humans contribute to the restoration of ecological balance and biodiversity

Question 32.

- A. endangered species are safeguarded through carefully planned conservation programmes
- B. endangered species are relocated through urban expansion to create new living spaces
- C. endangered species are displayed through exhibitions to promote environmental education
- D. environmental activists organise public events to collect funds for animal exhibitions

Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 33 to 40.

Throughout history, countless individuals have shown remarkable courage by standing up for justice, equality, and human rights. These people often faced tremendous opposition, yet their actions inspired change and left lasting legacies. They believed that fairness and dignity are fundamental rights that everyone deserves, regardless of their background. **Their** efforts have not only reshaped societies but also motivated others to challenge injustices and build a fairer world.

One notable example is Rosa Parks, who refused to give up her seat on a bus in Montgomery, Alabama, in 1955. Her quiet act of **defiance** became a powerful symbol of the Civil Rights Movement in the United States. **Parks' determination showed that even small actions can lead to significant change when guided by strong principles.** Her courage encouraged others to stand up against racial discrimination and fight for equality.

Another example is Nelson Mandela, who spent 27 years in prison for opposing apartheid in South Africa. Despite his hardships, Mandela emerged as a unifying leader who helped bring an end to racial segregation in the country. His **forgiveness** and focus on reconciliation rather than revenge serve as enduring lessons for humanity. Mandela's perseverance demonstrates the power of hope and resilience in overcoming systemic injustice.

Standing up for what is right often comes with risks, such as imprisonment, threats, or public criticism. However, these challenges highlight the strength and resilience of those who fight for justice. By honoring these individuals, we not only remember their contributions but also encourage others to continue their work toward a more just and equal world. Their stories remind us that change is possible

when people stand together to uphold human rights and challenge oppression. In every generation, new challenges arise that require courage and moral clarity. When individuals choose to act with integrity, they inspire others to do the same. This collective effort creates a ripple effect that can transform communities and shape a brighter future for all.

Question 33. What is the opposite of the word **forgiveness** in the passage?

- A. reconciliation B. patience C. revenge D. compassion

Question 34. Which statement is **TRUE** according to the passage?

- A. Nelson Mandela focused on reconciliation instead of revenge after his release.
B. Justice advocates always encounter physical challenges while fighting for rights.
C. Meaningful social change cannot be achieved without large public protests.
D. Rosa Parks delivered several speeches promoting racial equality in America.

Question 35. Which of the following is **NOT true** according to the passage?

- A. Justice brings no risks. B. Mandela valued forgiveness.
C. Courage inspires others. D. Parks inspired social change.

Question 36. What does the word **defiance** in paragraph 2 mean?

- A. resistance B. obedience C. celebration D. agreement

Question 37. In which paragraph does the author explore the risks of standing up for justice?

- A. Paragraph 4 B. Paragraph 2 C. Paragraph 1 D. Paragraph 3

Question 38. What does the pronoun **their** in paragraph 1 refer to?

- A. Legacies B. Actions C. Rights D. Individuals

Question 39. Which paragraph mentions Nelson Mandela's time in prison?

- A. Paragraph 3 B. Paragraph 4 C. Paragraph 2 D. Paragraph 1

Question 40. Which statement best paraphrases the underlined sentence in paragraph 2?

- A. Parks believed that meaningful change requires strong leaders and large social movements.
B. Parks suggested that big actions are always more powerful than simple individual efforts.
C. Parks demonstrated that strong values help people accept injustice without losing hope.
D. Parks proved that small acts based on firm beliefs can result in major social change.

----- **THE END** -----

Question 8. A. pressed on B. turned down C. held up D. put off

Question 9. A. quality B. number C. quantity D. amount

Question 10. A. in addition to B. in case of C. in regard to D. in terms of

Question 11. A. obstructing B. provoking C. bothering D. harassing

Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct option that best fits each of the numbered blanks from 12 to 16.

Conservation centres play a crucial role in nurturing endangered animals before reintroducing them into their natural habitats. These centres, which specialise in the care and rehabilitation of threatened species, (12)_____. This process ensures that the animals are strong enough to survive in the wild and capable of displaying natural behaviours necessary for their long-term survival. Within these centres, veterinarians, biologists, and trained volunteers work together to provide medical treatment, create safe enclosures that simulate real habitats, and teach animals how to forage or interact with others of their kind.

Releasing these animals back into the wild, however, presents many challenges. One major issue is that animals (13)_____ may struggle to adapt to their natural habitats. For example, they might not know how to hunt or find food independently, skills essential for survival. (14)_____. Additionally, conflicts with existing wild populations can occur, as territorial disputes may arise. Some reintroduced animals may also be exposed to human activities such as deforestation, hunting, or pollution, which threaten their safety.

Despite these difficulties, the efforts are worthwhile. Reintroduced to natural habitats, (15)_____. Successful cases, such as those involving large predators like wolves or big cats, have proven that with thorough planning, conservation projects can contribute to healthier environments. Through these efforts, public awareness is being raised about the importance of wildlife protection. This growing awareness encourages communities to take action, ensuring that (16)_____ and that conservation work continues to flourish for future generations.

Question 12.

A. provide a controlled environment for animals to receive proper care and social interaction

B. which provide animals with a controlled environment, receive proper care and social interaction

- C. animals receive proper care and social interaction in the controlled environment provided
- D. create a controlled environment for animals to develop proper care and social interaction

Question 13.

- A. in protected environments they have lived and grown for a longer period than in others
- B. that have lived and grown in protected environments for a long period
- C. which having lived and grown for a long period in protected environments
- D. have lived and grown with humans under controlled conditions for a long period

Question 14.

- A. As a result, they may face starvation or become unable to compete with other animals for resources
- B. However, high competition for resources in the habitat leads to starvation and even death
- C. Similarly, the well-being and survival of animals is threatened when resources are already scarce
- D. Natural competition, by contrast, will select the strongest warriors and eliminate the weaker ones

Question 15.

- A. animals help restore ecosystems which depend on the balance of various species
- B. the ecosystem is restored thanks to the balance that these animals unintentionally bring
- C. humans contribute to the restoration of ecological balance and biodiversity
- D. the ecosystem regains its balance, beneficial for the long-term survival of the other species

Question 16.

- A. endangered species are displayed through exhibitions to promote environmental education
- B. endangered species are safeguarded through carefully planned conservation programmes
- C. environmental activists organise public events to collect funds for animal exhibitions
- D. endangered species are relocated through urban expansion to create new living spaces

Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 17 to 26.

South Korea is developing next-generation military robots that will mimic the movements and capabilities of birds, snakes, marine creatures and even insects on the battlefields of the future. The Defence Acquisition Programme Administration (DAPA), which oversees the creation of weapons systems for the military has announced plans to develop "biobots" - robots that are based on real creatures - to be deployed as early as 2024, Yonhap News reported.

(I) There is a recognition that the South Korean military will very soon need to rely more heavily on technology to defend the nation, with a falling birthrate meaning that fewer young men are available to do their mandatory national service, **which** ranges from 21 months in the army to 24 months in the air force. (II) In addition, there is growing resistance among many men to obligatory military service and the South Korean government has recently made it easier for some to avoid serving, such as by claiming that it contravenes their religious beliefs. (III) Another "trick" that exempts a man from military service is tattoos that cover most of his body. (IV)

In the initial stages, bird-like androids or swimming robots will be deployed to carry out reconnaissance operations, miniature mechanical flying devices will be able to provide information on the actions of an enemy force and robots that can move like a snake will be able to access **constricted** spaces. As well as assisting in military operations, these devices will be able to assist in search-and-rescue operations and will have applications in areas affected by natural disasters.

The agency said it is turning to designs that have been inspired by the natural world because nature has **engineered** animals to survive and thrive in their environments over millions of years. The South Korean military plans to work closely with domestic technology companies, which are widely seen as among the most advanced in the world in the areas of artificial intelligence, but have less of a focus on military applications.

(Adapted from <https://www.telegraph.co.uk>)

Question 17. The word **which** in paragraph 2 refers to _____.

- A. national service
- B. real creatures

C. South Korean military

D. falling birthrate

Question 18. Which of the following is **NOT** mentioned as mimicking the movements and capabilities of South Korea's next-generation military robots?

A. Robots that move and fly like birds to perform reconnaissance missions.

B. Machines modeled on marine creatures designed for underwater operations.

C. Robots resembling rabbits that are trained to detect landmines on battlefields.

D. Devices inspired by insects capable of collecting intelligence in small areas.

Question 19. Where in paragraph 2 does the following sentence best fit?

Others have claimed to be suffering mental illness or have put on so much weight that they are above the maximum limit for recruits.

A. (IV)

B. (I)

C. (II)

D. (III)

Question 20. Which of the following best paraphrases the underlined sentence in the first paragraph?

A. South Korea are created military robots which can imitate the actions and characteristics of animals for future battlefields.

B. Modern military robots will battle with birds, snakes, marine creatures and even insects in South Korea battlefields.

C. The actions and characteristics of animals will mimic modern military robots of South Korea for future battlefields.

D. Modern military robots are created by South Korea can imitate the actions and characteristics of animals for future battlefields.

Question 21. Which of the following best summarizes the passage?

A. The introduction of new technologies that are expected to support rescue and recovery efforts in areas heavily affected by natural disasters.

B. The ambitious plan of South Korea to create next-generation, animal-inspired robots designed primarily for military operations and national defense.

C. The measures and strategies taken by the South Korean army to deal with the nation's declining birth rate and shortage of young soldiers.

D. The explanation of how real animals serve as perfect biological models that inspire scientists to design advanced military robots in South Korea.

Question 22. What can be inferred from the passage?

A. The South Korean army may collaborate with other technology companies in the country.

B. Military robots have been widely used by the South Korean army in various missions.

C. Future biobots will take inspiration exclusively from flying and swimming animals.

D. The majority of Korean men does not want to join the army because of religious reason.

Question 23. Which of the following statements best summarizes paragraph 3?

A. The newly designed robots will serve both in military missions and humanitarian efforts such as rescue operations.

B. Military robots are portrayed as versatile devices that can gather intelligence, support operations, and assist during disasters.

C. The paragraph describes how robotic technology based on animal motion improves South Korea's military and civil operations.

D. South Korea is developing advanced military robots modeled on animal movements to perform multiple roles in national defense.

Question 24. Based on paragraph 3, which of the following is **TRUE** about the use of "biobots" in the future?

A. Birdlike androids will only assist in reconnaissance operations.

B. Only snake robots are useful in areas affected by natural disasters.

C. Small flying robots can be used to gather information about enemy forces.

D. Swimming robots must always be deployed along with flying ones.

- Question 25.** The word **engineered** in the final paragraph can be best replaced by _____.
- A. decided B. defined C. designed D. determined
- Question 26.** The word **constricted** in paragraph 3 is **OPPOSITE** in meaning to _____.
- A. shallow B. narrow C. minuscule D. massive

Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 27 to 34.

Throughout history, countless individuals have shown remarkable courage by standing up for justice, equality, and human rights. These people often faced tremendous opposition, yet their actions inspired change and left lasting legacies. They believed that fairness and dignity are fundamental rights that everyone deserves, regardless of their background. **Their** efforts have not only reshaped societies but also motivated others to challenge injustices and build a fairer world.

One notable example is Rosa Parks, who refused to give up her seat on a bus in Montgomery, Alabama, in 1955. Her quiet act of **defiance** became a powerful symbol of the Civil Rights Movement in the United States. **Parks' determination showed that even small actions can lead to significant change when guided by strong principles.** Her courage encouraged others to stand up against racial discrimination and fight for equality.

Another example is Nelson Mandela, who spent 27 years in prison for opposing apartheid in South Africa. Despite his hardships, Mandela emerged as a unifying leader who helped bring an end to racial segregation in the country. His **forgiveness** and focus on reconciliation rather than revenge serve as enduring lessons for humanity. Mandela's perseverance demonstrates the power of hope and resilience in overcoming systemic injustice.

Standing up for what is right often comes with risks, such as imprisonment, threats, or public criticism. However, these challenges highlight the strength and resilience of those who fight for justice. By honoring these individuals, we not only remember their contributions but also encourage others to continue their work toward a more just and equal world. Their stories remind us that change is possible when people stand together to uphold human rights and challenge oppression. In every generation, new challenges arise that require courage and moral clarity. When individuals choose to act with integrity, they inspire others to do the same. This collective effort creates a ripple effect that can transform communities and shape a brighter future for all.

- Question 27.** Which paragraph mentions Nelson Mandela's time in prison?
- A. Paragraph 2 B. Paragraph 3 C. Paragraph 4 D. Paragraph 1
- Question 28.** In which paragraph does the author explore the risks of standing up for justice?
- A. Paragraph 4 B. Paragraph 2 C. Paragraph 3 D. Paragraph 1
- Question 29.** What is the opposite of the word **forgiveness** in the passage?
- A. revenge B. compassion C. patience D. reconciliation
- Question 30.** Which of the following is **NOT true** according to the passage?
- A. Mandela valued forgiveness. B. Parks inspired social change.
C. Courage inspires others. D. Justice brings no risks.
- Question 31.** Which statement best paraphrases the underlined sentence in paragraph 2?
- A. Parks proved that small acts based on firm beliefs can result in major social change.
B. Parks believed that meaningful change requires strong leaders and large social movements.
C. Parks demonstrated that strong values help people accept injustice without losing hope.
D. Parks suggested that big actions are always more powerful than simple individual efforts.
- Question 32.** What does the pronoun **their** in paragraph 1 refer to?
- A. Individuals B. Rights C. Actions D. Legacies
- Question 33.** What does the word **defiance** in paragraph 2 mean?
- A. resistance B. obedience C. agreement D. celebration
- Question 34.** Which statement is **TRUE** according to the passage?
- A. Nelson Mandela focused on reconciliation instead of revenge after his release.
B. Meaningful social change cannot be achieved without large public protests.
C. Justice advocates always encounter physical challenges while fighting for rights.

D. Rosa Parks delivered several speeches promoting racial equality in America.

Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 13 to 22.

South Korea is developing next-generation military robots that will mimic the movements and capabilities of birds, snakes, marine creatures and even insects on the battlefields of the future. The Defence Acquisition Programme Administration (DAPA), which oversees the creation of weapons systems for the military has announced plans to develop "biobots" - robots that are based on real creatures - to be deployed as early as 2024, Yonhap News reported.

(I) There is a recognition that the South Korean military will very soon need to rely more heavily on technology to defend the nation, with a falling birthrate meaning that fewer young men are available to do their mandatory national service, **which** ranges from 21 months in the army to 24 months in the air force. (II) In addition, there is growing resistance among many men to obligatory military service and the South Korean government has recently made it easier for some to avoid serving, such as by claiming that it contravenes their religious beliefs. (III) Another "trick" that exempts a man from military service is tattoos that cover most of his body. (IV)

In the initial stages, bird-like androids or swimming robots will be deployed to carry out reconnaissance operations, miniature mechanical flying devices will be able to provide information on the actions of an enemy force and robots that can move like a snake will be able to access **constricted** spaces. As well as assisting in military operations, these devices will be able to assist in search-and-rescue operations and will have applications in areas affected by natural disasters.

The agency said it is turning to designs that have been inspired by the natural world because nature has **engineered** animals to survive and thrive in their environments over millions of years. The South Korean military plans to work closely with domestic technology companies, which are widely seen as among the most advanced in the world in the areas of artificial intelligence, but have less of a focus on military applications.

(Adapted from <https://www.telegraph.co.uk>)

Question 13. What can be inferred from the passage?

- A. The South Korean army may collaborate with other technology companies in the country.
 B. Future biobots will take inspiration exclusively from flying and swimming animals.
 C. The majority of Korean men does not want to join the army because of religious reason.
 D. Military robots have been widely used by the South Korean army in various missions.

Question 14. The word **which** in paragraph 2 refers to _____.

- A. falling birthrate B. real creatures
 C. national service D. South Korean military

Question 15. Which of the following best paraphrases the underlined sentence in the first paragraph?

- A. The actions and characteristics of animals will mimic modern military robots of South Korea for future battlefields.
 B. Modern military robots are created by South Korea can imitate the actions and characteristics of animals for future battlefields.
 C. Modern military robots will battle with birds, snakes, marine creatures and even insects in South Korea battlefields.
 D. South Korea are created military robots which can imitate the actions and characteristics of animals for future battlefields.

Question 16. Where in paragraph 2 does the following sentence best fit?

Others have claimed to be suffering mental illness or have put on so much weight that they are above the maximum limit for recruits.

A. (I) B. (III) C. (II) D. (IV)

Question 17. The word **engineered** in the final paragraph can be best replaced by _____.

A. decided B. designed C. defined D. determined

Question 18. Which of the following is **NOT** mentioned as mimicking the movements and capabilities of South Korea's next-generation military robots?

- A. Robots resembling rabbits that are trained to detect landmines on battlefields.
- B. Devices inspired by insects capable of collecting intelligence in small areas.
- C. Machines modeled on marine creatures designed for underwater operations.
- D. Robots that move and fly like birds to perform reconnaissance missions.

Question 19. Which of the following statements best summarizes paragraph 3?

- A. The paragraph describes how robotic technology based on animal motion improves South Korea's military and civil operations.
- B. The newly designed robots will serve both in military missions and humanitarian efforts such as rescue operations.
- C. Military robots are portrayed as versatile devices that can gather intelligence, support operations, and assist during disasters.
- D. South Korea is developing advanced military robots modeled on animal movements to perform multiple roles in national defense.

Question 20. Based on paragraph 3, which of the following is **TRUE** about the use of "biobots" in the future?

- A. Swimming robots must always be deployed along with flying ones.
- B. Only snake robots are useful in areas affected by natural disasters.
- C. Birdlike androids will only assist in reconnaissance operations.
- D. Small flying robots can be used to gather information about enemy forces.

Question 21. The word **constricted** in paragraph 3 is **OPPOSITE** in meaning to _____.

A. narrow B. shallow C. minuscule D. massive

Question 22. Which of the following best summarizes the passage?

- A. The ambitious plan of South Korea to create next-generation, animal-inspired robots designed primarily for military operations and national defense.
- B. The introduction of new technologies that are expected to support rescue and recovery efforts in areas heavily affected by natural disasters.
- C. The explanation of how real animals serve as perfect biological models that inspire scientists to design advanced military robots in South Korea.
- D. The measures and strategies taken by the South Korean army to deal with the nation's declining birth rate and shortage of young soldiers.

Mark the letter A, B, C or D on your answer sheet to indicate the best arrangement of utterances or sentences to make a meaningful exchange or text in each of the following questions from 23 to 27.

Question 23. a. Anna: Hi, David! I heard you got a new job. Congratulations!

b. Anna: That sounds great! I'm really happy for you.

c. David: Thanks, Anna! Yes, I started working for a software company last month.

A. c-a-b B. c-b-a C. a-c-b D. b-c-a

Question 24. a. Nam: That's great! How does the project work?

b. Mai: Our school has started a "Green Campus" project to save energy and reduce plastic waste.

c. Nam: I completely agree! Each small action counts. Together, we can create a more sustainable future for everyone.

d. Mai: We've installed solar panels, set up recycling bins, and encouraged students to bring reusable bottles.

e. Nam: Wow, that sounds really practical. I think every school should have a similar project.

A. c-b-a-e-d B. b-d-a-e-c C. d-e-a-b-c D. b-a-d-e-c

Question 25. a. While AI has the potential to automate jobs, it also creates opportunities for new roles

that require advanced problem-solving and creative skills.

- b. As machines become more adept at performing complex tasks, businesses are rapidly integrating AI to enhance efficiency and innovation.
 - c. The key to navigating this transformation lies in balancing technological advancements with the human elements of adaptability and continuous learning.
 - d. Artificial intelligence is revolutionizing industries at an unprecedented pace, transforming how organizations operate and setting new standards for productivity and innovation.
 - e. This technological shift is not without its challenges, particularly in areas like employment.
- A. b-c-e-a-d B. d-b-e-a-c C. b-e-d-a-c D. d-b-e-c-a

- Question 26.** a. Moreover, despite the popularity of traditional medicine, modern medical facilities have been established in major cities, blending traditional and contemporary treatments.
- b. The use of herbal remedies has increased, with clinics offering treatments that use natural ingredients like ginseng, turmeric, and licorice.
 - c. Traditional Vietnamese medicine has been practiced for centuries and remains a vital part of healthcare in rural areas.
 - d. This blend of old and new approaches ensures a holistic healthcare experience that caters to both urban and rural populations.
 - e. The government has also supported this growth by funding research on medicinal herbs and integrating traditional practices into public health policies.
- A. c-d-a-b-e B. c-b-e-a-d C. c-b-d-a-e D. c-e-b-a-d

Question 27. Hi Minh,

- a. I've learned some useful tips for saving electricity online, and I think you may find them helpful too.
 - b. These small actions not only lower our electricity bills but also help protect the environment by reducing carbon emissions and saving natural resources.
 - c. Let's both try to follow these habits and see how much energy we can save!
 - d. Turning off lights when leaving a room and unplugging unused devices can make a big difference.
 - e. Another good idea is to use energy-saving appliances like LED bulbs or smart plugs, which last longer and help us cut down unnecessary power use.
- Take care,
Lan
- A. b-e-a-d-c B. d-b-a-c-e C. c-a-d-b-e D. a-d-e-b-c

Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 28 to 35.

Throughout history, countless individuals have shown remarkable courage by standing up for justice, equality, and human rights. These people often faced tremendous opposition, yet their actions inspired change and left lasting legacies. They believed that fairness and dignity are fundamental rights that everyone deserves, regardless of their background. **Their** efforts have not only reshaped societies but also motivated others to challenge injustices and build a fairer world.

One notable example is Rosa Parks, who refused to give up her seat on a bus in Montgomery, Alabama, in 1955. Her quiet act of **defiance** became a powerful symbol of the Civil Rights Movement in the United States. **Parks' determination showed that even small actions can lead to significant change when guided by strong principles.** Her courage encouraged others to stand up against racial discrimination and fight for equality.

Another example is Nelson Mandela, who spent 27 years in prison for opposing apartheid in South Africa. they inspire others to do the same. This collective effort creates a ripple effect that can transform communities and shape a brighter future for all.

Question 28. Which statement best paraphrases the underlined sentence in paragraph 2?

- A. Parks suggested that big actions are always more powerful than simple individual efforts.
- B. Parks proved that small acts based on firm beliefs can result in major social change.
- C. Parks believed that meaningful change requires strong leaders and large social movements.
- D. Parks demonstrated that strong values help people accept injustice without losing hope.

Question 29. What is the opposite of the word **forgiveness** in the passage?

- A. reconciliation
- B. patience
- C. compassion
- D. revenge

Question 30. In which paragraph does the author explore the risks of standing up for justice?

- A. Paragraph 1
- B. Paragraph 3
- C. Paragraph 2
- D. Paragraph 4

Question 31. What does the pronoun **their** in paragraph 1 refer to?

- A. Legacies
- B. Individuals
- C. Actions
- D. Rights

Question 32. What does the word **defiance** in paragraph 2 mean?

- A. resistance
- B. agreement
- C. celebration
- D. obedience

Question 33. Which statement is **TRUE** according to the passage?

- A. Nelson Mandela focused on reconciliation instead of revenge after his release.
- B. Rosa Parks delivered several speeches promoting racial equality in America.
- C. Justice advocates always encounter physical challenges while fighting for rights.
- D. Meaningful social change cannot be achieved without large public protests.

Question 34. Which paragraph mentions Nelson Mandela's time in prison?

- A. Paragraph 4
- B. Paragraph 3
- C. Paragraph 2
- D. Paragraph 1

Question 35. Which of the following is **NOT true** according to the passage?

- A. Mandela valued forgiveness.
- B. Courage inspires others.
- C. Justice brings no risks.
- D. Parks inspired social change.

Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct option that best fits each of the numbered blanks from 36 to 40.

Conservation centres play a crucial role in nurturing endangered animals before reintroducing them into their natural habitats. These centres, which specialise in the care and rehabilitation of threatened species, (36)_____. This process ensures that the animals are strong enough to survive in the wild and capable of displaying natural behaviours necessary for their long-term survival. Within these centres, veterinarians, biologists, and trained volunteers work together to provide medical treatment, create safe enclosures that simulate real habitats, and teach animals how to forage or interact with others of their kind.

Releasing these animals back into the wild, however, presents many challenges. One major issue is that animals (37)_____ may struggle to adapt to their natural habitats. For example, they might not know how to hunt or find food independently, skills essential for survival. (38) _____. Additionally, conflicts with existing wild populations can occur, as territorial disputes may arise. Some reintroduced animals may also be exposed to human activities such as deforestation, hunting, or pollution, which threaten their safety.

Despite these difficulties, the efforts are worthwhile. Reintroduced to natural habitats, (39)_____. Successful cases, such as those involving large predators like wolves or big cats, have proven that with thorough planning, conservation projects can contribute to healthier environments. Through these efforts, public awareness is being raised about the importance of wildlife protection. This growing awareness encourages communities to take action, ensuring that (40) _____ and that conservation work continues to flourish for future generations.

Question 36.

- A. create a controlled environment for animals to develop proper care and social interaction
- B. animals receive proper care and social interaction in the controlled environment provided
- C. provide a controlled environment for animals to receive proper care and social interaction
- D. which provide animals with a controlled environment, receive proper care and social interaction

Question 37.

- A. which having lived and grown for a long period in protected environments
- B. in protected environments they have lived and grown for a longer period than in others
- C. that have lived and grown in protected environments for a long period
- D. have lived and grown with humans under controlled conditions for a long period

Question 38.

- A. Similarly, the well-being and survival of animals is threatened when resources are already scarce
- B. As a result, they may face starvation or become unable to compete with other animals for resources
- C. However, high competition for resources in the habitat leads to starvation and even death
- D. Natural competition, by contrast, will select the strongest warriors and eliminate the weaker ones

Question 39.

- A. the ecosystem is restored thanks to the balance that these animals unintentionally bring
- B. the ecosystem regains its balance, beneficial for the long-term survival of the other species
- C. animals help restore ecosystems which depend on the balance of various species
- D. humans contribute to the restoration of ecological balance and biodiversity

Question 40.

- A. endangered species are safeguarded through carefully planned conservation programmes
- B. environmental activists organise public events to collect funds for animal exhibitions
- C. endangered species are displayed through exhibitions to promote environmental education
- D. endangered species are relocated through urban expansion to create new living spaces

Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 12 to 19.

Throughout history, countless individuals have shown remarkable courage by standing up for justice, equality, and human rights. These people often faced tremendous opposition, yet their actions inspired change and left lasting legacies. They believed that fairness and dignity are fundamental rights that everyone deserves, regardless of their background. **Their** efforts have not only reshaped societies but also motivated others to challenge injustices and build a fairer world.

One notable example is Rosa Parks, who refused to give up her seat on a bus in Montgomery, Alabama, in 1955. Her quiet act of **defiance** became a powerful symbol of the Civil Rights Movement in the United States. **Parks' determination showed that even small actions can lead to significant change when guided by strong principles.** Her courage encouraged others to stand up against racial discrimination and fight for equality.

Another example is Nelson Mandela, who spent 27 years in prison for opposing apartheid in South Africa. Despite his hardships, Mandela emerged as a unifying leader who helped bring an end to racial segregation in the country. His **forgiveness** and focus on reconciliation rather than revenge serve as enduring lessons for humanity. Mandela's perseverance demonstrates the power of hope and resilience in overcoming systemic injustice.

Standing up for what is right often comes with risks, such as imprisonment, threats, or public criticism. However, these challenges highlight the strength and resilience of those who fight for

justice. By honoring these individuals, we not only remember their contributions but also encourage others to continue their work toward a more just and equal world. Their stories remind us that change is possible when people stand together to uphold human rights and challenge oppression. In every generation, new challenges arise that require courage and moral clarity. When individuals choose to act with integrity, they inspire others to do the same. This collective effort creates a ripple effect that can transform communities and shape a brighter future for all.

Question 12. What does the pronoun **their** in paragraph 1 refer to?

- A. Rights B. Actions C. Legacies D. Individuals

Question 13. Which statement best paraphrases the underlined sentence in paragraph 2?

- A. Parks believed that meaningful change requires strong leaders and large social movements.
B. Parks suggested that big actions are always more powerful than simple individual efforts.
C. Parks demonstrated that strong values help people accept injustice without losing hope.
D. Parks proved that small acts based on firm beliefs can result in major social change.

Question 14. In which paragraph does the author explore the risks of standing up for justice?

- A. Paragraph 4 B. Paragraph 3 C. Paragraph 2 D. Paragraph 1

Question 15. What does the word **defiance** in paragraph 2 mean?

- A. resistance B. celebration C. obedience D. agreement

Question 16. Which paragraph mentions Nelson Mandela's time in prison?

- A. Paragraph 1 B. Paragraph 4 C. Paragraph 2 D. Paragraph 3

Question 17. Which statement is **TRUE** according to the passage?

- A. Justice advocates always encounter physical challenges while fighting for rights.
B. Nelson Mandela focused on reconciliation instead of revenge after his release.
C. Meaningful social change cannot be achieved without large public protests.
D. Rosa Parks delivered several speeches promoting racial equality in America.

Question 18. Which of the following is **NOT true** according to the passage?

- A. Mandela valued forgiveness. B. Justice brings no risks.
C. Parks inspired social change. D. Courage inspires others.

Question 19. What is the opposite of the word **forgiveness** in the passage?

- A. revenge B. patience C. compassion D. reconciliation

Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 20 to 29.

South Korea is developing next-generation military robots that will mimic the movements and capabilities of birds, snakes, marine creatures and even insects on the battlefields of the future. The Defence Acquisition Programme Administration (DAPA), which oversees the creation of weapons systems for the military has announced plans to develop "biobots" - robots that are based on real creatures - to be deployed as early as 2024, Yonhap News reported.

(I) There is a recognition that the South Korean military will very soon need to rely more heavily on technology to defend the nation, with a falling birthrate meaning that fewer young men are available to do their mandatory national service, **which** ranges from 21 months in the army to 24 months in the air force. (II) In addition, there is growing resistance among many men to obligatory military service and the South Korean government has recently made it easier for some to avoid serving, such as by claiming that it contravenes their religious beliefs. (III) Another "trick" that exempts a man from military service is tattoos that cover most of his body. (IV)

In the initial stages, bird-like androids or swimming robots will be deployed to carry out reconnaissance operations, miniature mechanical flying devices will be able to provide information on the actions of an enemy force and robots that can move like a snake will be able to access **constricted** spaces. As well as assisting in military operations, these devices will be able to assist in search-and-rescue operations and will have applications in areas affected by natural disasters.

The agency said it is turning to designs that have been inspired by the natural world because

nature has **engineered** animals to survive and thrive in their environments over millions of years. The South Korean military plans to work closely with domestic technology companies, which are widely seen as among the most advanced in the world in the areas of artificial intelligence, but have less of a focus on military applications.

(Adapted from <https://www.telegraph.co.uk>)

Question 20. The word **engineered** in the final paragraph can be best replaced by _____.

- A. determined B. designed C. defined D. decided

Question 21. Based on paragraph 3, which of the following is **TRUE** about the use of "biobots" in the future?

- A. Swimming robots must always be deployed along with flying ones.
B. Birdlike androids will only assist in reconnaissance operations.
C. Only snake robots are useful in areas affected by natural disasters.
D. Small flying robots can be used to gather information about enemy forces.

Question 22. Which of the following best summarizes the passage?

- A. The ambitious plan of South Korea to create next-generation, animal-inspired robots designed primarily for military operations and national defense.
B. The measures and strategies taken by the South Korean army to deal with the nation's declining birth rate and shortage of young soldiers.
C. The introduction of new technologies that are expected to support rescue and recovery efforts in areas heavily affected by natural disasters.
D. The explanation of how real animals serve as perfect biological models that inspire scientists to design advanced military robots in South Korea.

Question 23. Which of the following best paraphrases the underlined sentence in the first paragraph?

- A. The actions and characteristics of animals will mimic modern military robots of South Korea for future battlefields.
B. Modern military robots will battle with birds, snakes, marine creatures and even insects in South Korea battlefields.
C. South Korea are created military robots which can imitate the actions and characteristics of animals for future battlefields.
D. Modern military robots are created by South Korea can imitate the actions and characteristics of animals for future battlefields.

Question 24. Where in paragraph 2 does the following sentence best fit?

Others have claimed to be suffering mental illness or have put on so much weight that they are above the maximum limit for recruits.

- A. (IV) B. (III) C. (I) D. (II)

Question 25. Which of the following is **NOT** mentioned as mimicking the movements and capabilities of South Korea's next-generation military robots?

- A. Machines modeled on marine creatures designed for underwater operations.
B. Robots resembling rabbits that are trained to detect landmines on battlefields.
C. Robots that move and fly like birds to perform reconnaissance missions.
D. Devices inspired by insects capable of collecting intelligence in small areas.

Question 26. Which of the following statements best summarizes paragraph 3?

- A. The newly designed robots will serve both in military missions and humanitarian efforts such as rescue operations.
B. Military robots are portrayed as versatile devices that can gather intelligence, support operations, and assist during disasters.
C. The paragraph describes how robotic technology based on animal motion improves South Korea's military and civil operations.

D. South Korea is developing advanced military robots modeled on animal movements to perform multiple roles in national defense.

Question 27. The word **which** in paragraph 2 refers to _____.

- A. real creatures
B. South Korean military
C. national service
D. falling birthrate

Question 28. The word **constricted** in paragraph 3 is **OPPOSITE** in meaning to _____.

- A. minuscule
B. narrow
C. massive
D. shallow

Question 29. What can be inferred from the passage?

- A. The South Korean army may collaborate with other technology companies in the country.
B. Military robots have been widely used by the South Korean army in various missions.
C. The majority of Korean men does not want to join the army because of religious reason.
D. Future biobots will take inspiration exclusively from flying and swimming animals.

Read the following leaflet and mark the letter A, B, C or D on your answer sheet to indicate the option that best fits each of the numbered blanks from 30 to 35.

Important Notes for Attending the 80th National Day Parade

On the morning of September 2, 2025, the Military Parade and Procession will take place from 6.30 AM to around 10 AM at Ba Dinh Square, marking the 80th Anniversary of Vietnam's National Day. This is not only a solemn ceremony but also a proud moment for each (30) _____. In the days leading up to the event, the public may also witness several impressive parade (31) _____.

To enjoy the parade in comfort and safety, here are some important reminders:

- **Plan to arrive ahead of time.** The roads may be very congested and you could be (32) _____. A large (33) _____ of patriotic people will take to the streets to attend this important event.
- **Choose neat attire.** Prioritize simple yet respectful outfits such as T- shirts. Wear low-heeled shoes like sneakers or flats to move around with ease.
- **Bring essential protective items.** A cap or compact umbrella will shield you from the sun, while a raincoat is recommended (34) _____ sudden showers.
- **Celebrate respectfully with banners or flags.** Small banners, national flags, or stickers can help you share the festive spirit. However, remember to use them politely and avoid (35) _____ others' view.

(Adapted from dantri.com.vn)

- Question 30.** A. people
B. citizen
C. resident
D. inhabitant
- Question 31.** A. performances
B. practices
C. rehearsals
D. demonstrations
- Question 32.** A. put off
B. held up
C. pressed on
D. turned down
- Question 33.** A. quality
B. number
C. quantity
D. amount
- Question 34.** A. in case of
B. in terms of
C. in addition to
D. in regard to
- Question 35.** A. bothering
B. obstructing
C. harassing
D. provoking

Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct option that best fits each of the numbered blanks from 36 to 40.

Conservation centres play a crucial role in nurturing endangered animals before reintroducing them into their natural habitats. These centres, which specialise in the care and rehabilitation of threatened species, (36) _____. This process ensures that the animals are strong enough to survive in the wild and capable of displaying natural behaviours necessary for their long-term survival. Within these centres, veterinarians, biologists, and trained volunteers work together to provide medical treatment, create safe enclosures that simulate real habitats, and teach animals how to forage or interact with others of their kind.

Releasing these animals back into the wild, however, presents many challenges. One major issue is that animals (37) _____ may struggle to adapt to their natural habitats. For example, they might not know how to hunt or find food independently, skills essential for survival. (38) _____. Additionally, conflicts with existing wild populations can occur, as territorial disputes may arise. Some reintroduced

animals may also be exposed to human activities such as deforestation, hunting, or pollution, which threaten their safety.

Despite these difficulties, the efforts are worthwhile. Reintroduced to natural habitats, (39)_____. Successful cases, such as those involving large predators like wolves or big cats, have proven that with thorough planning, conservation projects can contribute to healthier environments. Through these efforts, public awareness is being raised about the importance of wildlife protection. This growing awareness encourages communities to take action, ensuring that (40) _____ and that conservation work continues to flourish for future generations.

Question 36.

- A. animals receive proper care and social interaction in the controlled environment provided
- B. create a controlled environment for animals to develop proper care and social interaction
- C. which provide animals with a controlled environment, receive proper care and social interaction
- D. provide a controlled environment for animals to receive proper care and social interaction

Question 37.

- A. in protected environments they have lived and grown for a longer period than in others
- B. which having lived and grown for a long period in protected environments
- C. have lived and grown with humans under controlled conditions for a long period
- D. that have lived and grown in protected environments for a long period

Question 38.

- A. Natural competition, by contrast, will select the strongest warriors and eliminate the weaker ones
- B. However, high competition for resources in the habitat leads to starvation and even death
- C. Similarly, the well-being and survival of animals is threatened when resources are already scarce
- D. As a result, they may face starvation or become unable to compete with other animals for resources

Question 39.

- A. the ecosystem is restored thanks to the balance that these animals unintentionally bring
- B. humans contribute to the restoration of ecological balance and biodiversity
- C. animals help restore ecosystems which depend on the balance of various species
- D. the ecosystem regains its balance, beneficial for the long-term survival of the other species

Question 40.

- A. environmental activists organise public events to collect funds for animal exhibitions
- B. endangered species are relocated through urban expansion to create new living spaces
- C. endangered species are safeguarded through carefully planned conservation programmes
- D. endangered species are displayed through exhibitions to promote environmental education
